

Unlock Your Career in Energy Management

Become a Registered Energy Manager (REM) - Type 1

A 5-day intensive training to master energy efficiency and comply with Malaysia's EECA 2024 regulations.

RTI Registration No.
IL1-2025-0006

📍 UTM SPACE Johor Bahru

📅 19 - 23 Jan / 9 - 13 Feb /
4 - 8 May / 10 - 14 Aug /
16 - 20 Nov 2026

Fee: RM 4,600 (normal rate)

Fee: RM 4,900
(HRDC rate)

Why Become a Certified REM?

The Energy Efficiency and Conservation Act (EECA 2024) mandates professional energy management. This certification is your key to leading compliance and driving savings in facilities with significant energy use.

The Registered Energy Manager (REM) - Type 1 training is a focused 5-day training program designed to equip participants with the essential skills and knowledge needed to obtain REM certification under Malaysia's Energy Efficiency and Conservation Act (EECA 2024). This certification is intended for professionals managing facilities with annual energy consumption between 21,600 GJ and 50,000 GJ, ensuring that these facilities comply with regulatory requirements and promote sustainable energy practices.

The course covers a comprehensive range of topics, providing both theoretical foundations and practical skills in energy management principles, energy efficiency strategies, and regulatory compliance. Participants will complete a certification examination on the final day to formally assess their readiness for REM Type 1 certification.

1st

Step to Higher Tiers

REM Type 1 certification is a prerequisite for advancing to REM Type 2 training.

Is This Training For You?

This training is intended for professionals involved in facility operations, energy management, or engineering who are required to comply with the new EECA 2024 requirements.

Facility Managers

Oversee building operations and energy consumption.

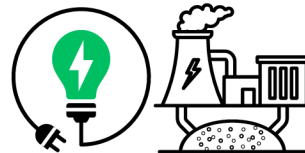

Engineers

Design, maintain, and optimize energy systems.

Energy Consultants

Advise clients on energy efficiency and compliance.

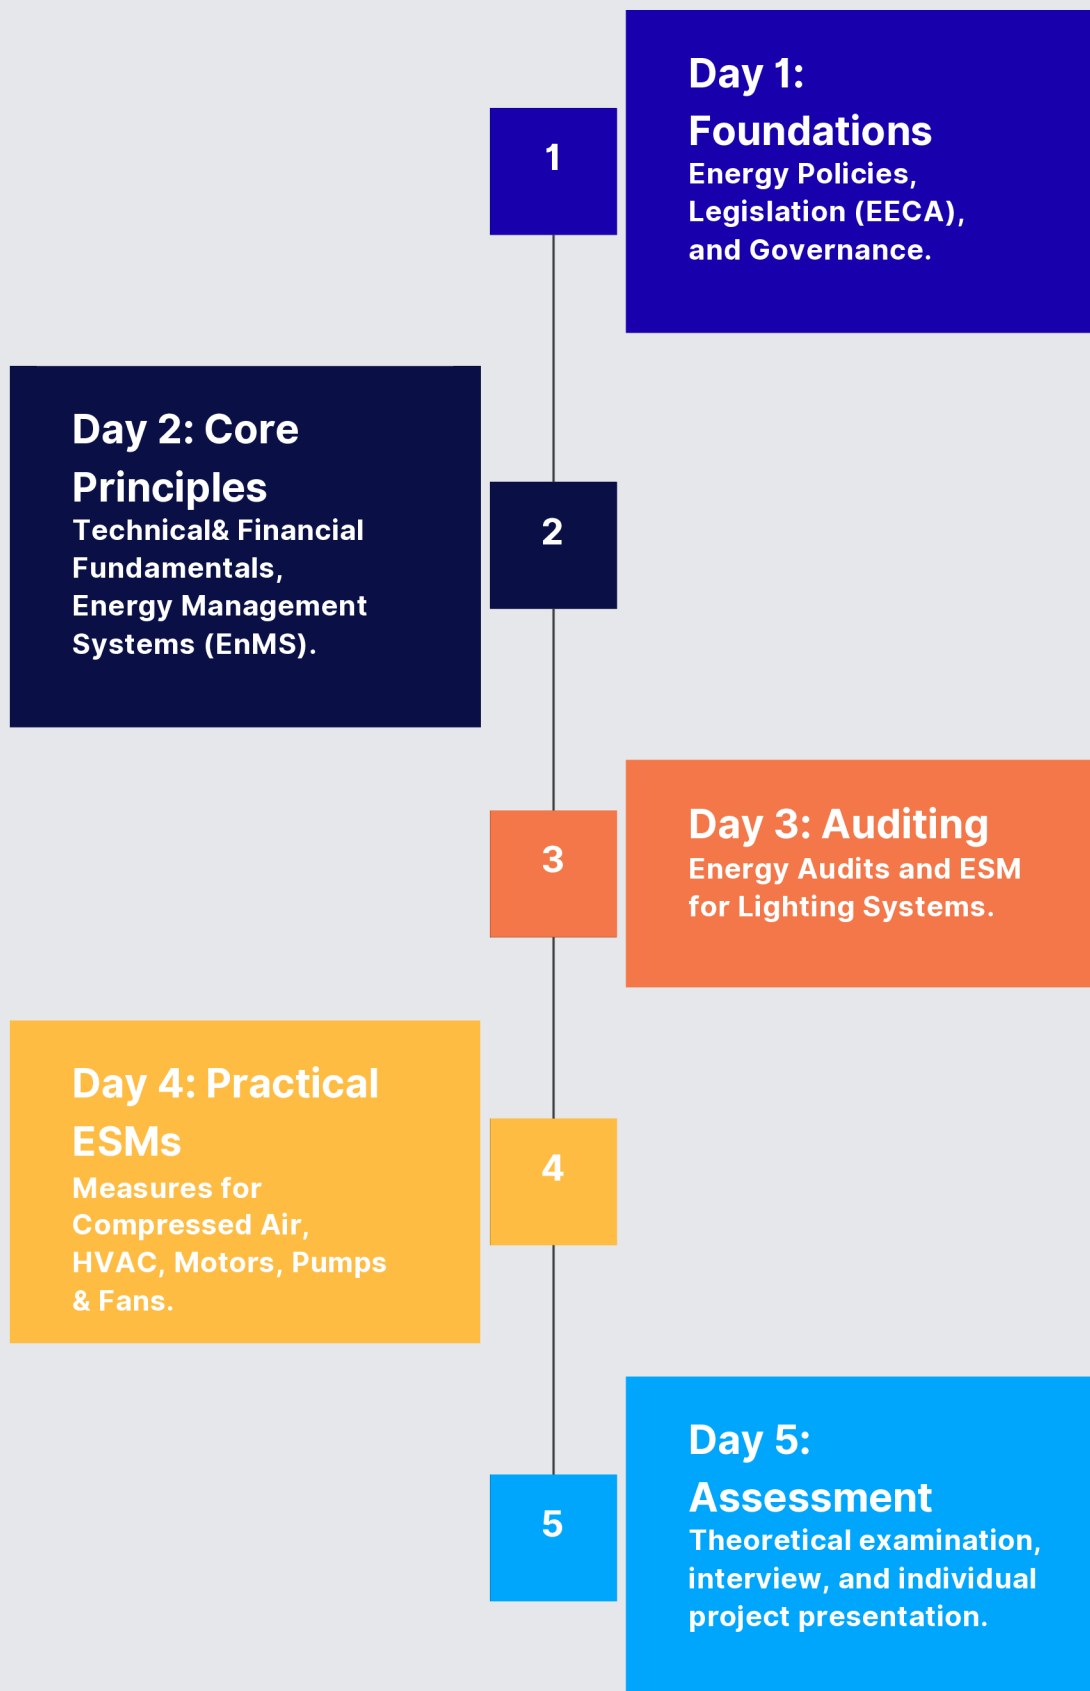

Energy Consumer / Building Owner

Your 5-Day Journey to Expertise

Our comprehensive schedule is packed with theoretical knowledge and practical applications, culminating in your certification assessment.

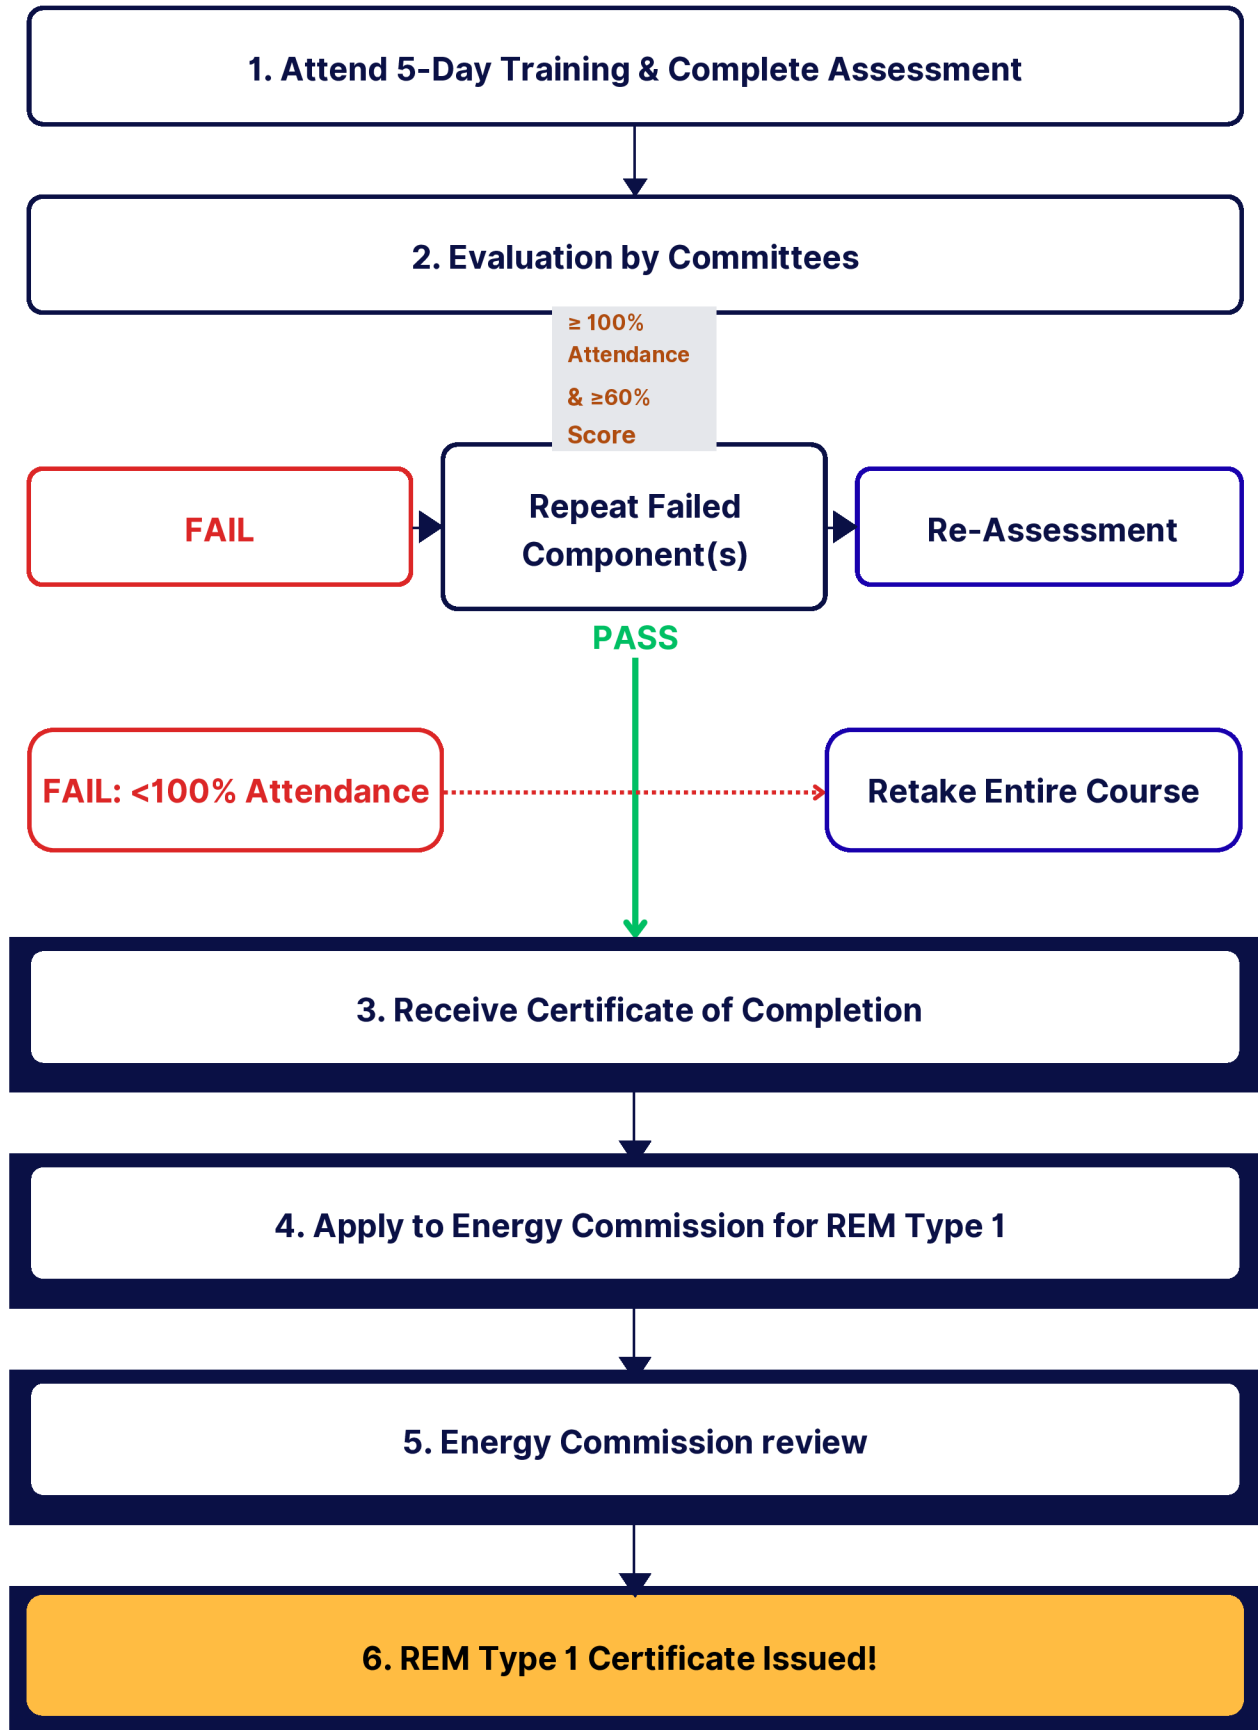

Course Outline

We focus on the key areas that produce real-world results and support regulatory compliance.

Your Path to Certification

Follow this clear process from the completion of your training to the issuance of your official REM Type 1 certificate by the Energy Commission.

Learn from the Best in the Field

Our trainers and organizing team, have a proven track record of excellence and impact in the energy sector.

Prof. Ir. Dr. Haslenda Hashim
REM Type 1 & 2

.....

Assoc. Prof. Dr. Zarina Ab Muis
REM Type 1 & 2

.....

Assoc. Prof. Ts. Dr. Ho Wai Shin
REM Type 1 & 2

.....

Ts. Dr. Muhammad Afiq Zubir
REM Type 1 & 2

.....

20+

Years of Experience

In energy audits, consultancy, R&D, and professional training.

Qualification Requirements

Ensure that you meet the prerequisites set by the Energy Commission before applying for the training

Qualification	Minimum Working Experience
Degree in science, engineering, technology, or architecture	2 years
Diploma in science, engineering, technology, or architecture	10 years
Registered Graduate Engineer / Engineering Technologist	2 years
Registered Professional Engineer / Professional Technologist	Optional (Assessment Only)
